## **THE CATACOMB COMMUNITY AND THE INDO-EUROPEAN PROBLEM**

*This article is devoted to definition of a language belonging of separate ethnic groups of late pit grave and catacomb generality. The ingul culture carriers are identified with the North-Caucasian family, and East catacomb carriers are identified with one of the praarijans branches and "novotitorovskaya culture" carriers too. The Budzhak culture carriers were pragreeks. The local population which has perceived ingul burial ritual has become the component in addition of iranianes eventually.*
