THE MAIN PROBLEMS OF TRIPILLYA CIVILIZATION

In the prehistoric Ukraine past can be found sizably bright events and phenomena, which defined further edge history. One of such episodes stood appearance of Tripillya civilisation. (VI-III Mill. BC), which omitted to us into heritage the numerous traces of as one of most old and most bright agricultural cultures of prehistoric Europe. Between day of hunter societies and first civilizations of the Early Bronze Age, which appeared in Egypt, Mesopotamia, India, China lies prettily long period, associated with formation of bases of these civiliza-tions - reproducing economy, handicrafts, first bridges, written language. For determination of this historical and cultural phenomena learned use notion "proto-civilisations". The Agricultural proto - civilisations of Old Europe, to which treats Tripillya, existed VI is IV Mill. BC, for hours together with early proto-civilisations found at Mesopotamia, Egypt, India and for some time were approximately on identical with them level of development.
